Subject: RE: House breifing today on water

Mark – thanks – I do need to get back for some other issues. I could come back if there is another opportunity that you think would help. Is the hearing recorded of videoed. I would be interested in WV Am and Am water issues/statements

And thank you for all of your assistance over the last few days. Your insight and knowledge of the issues has been a great help to me.

Bill

Subject: House breifing today on water

Bill, if there is any way you could stick around for one more day to attend this hearing this afternoon Im sure your input would be most welcomed and greatly appreciated by the legislature and the Tomblin administration. I understand you have other pressing obligations but thought I'd throw it out there. Thanks again for you help yesterday - I do think we hleped move the ball downfield a bit.
